

Custom Virtual Tours are virtual tours that have extra features. These are not supported on Google Maps platform. Custom features can be added to the original Google Virtual Tours and to freestanding 360 imagery that can be hosted on the client's webserver or on the 3<sup>rd</sup> party Custom Virtual Tour developer.

The following table is listing and comparing a handful of popular Custom Virtual Tour platform providers and leading software developers.

	VT provider	Support		Features	Advertisement	Pre-upload reparation	Image Size limitations	Fees Per pano	Hosting Fees
